

Characteristics | Features

- High foaming action
- Brightens and degreases
- Acid-based
- Commercial strength
- Will not harm copper or aluminum

ALUBRITE is a professionally formulated condenser coil cleaner designed to restore efficiency and extend the life of air conditioning and refrigeration systems. With its unique blend of acids and surfactants, ALUBRITE delivers heavy-duty foaming action that penetrates deep into stubborn dirt, grease, and grime, leaving coils clean and bright. This ensures improved airflow, enhanced cooling performance, and reduced energy consumption.

Key Features:

- Heavy-duty foaming action for deep cleaning.
- Ideal for cleaning refrigeration coils & condensers.
- Boosts system efficiency & cooling capacity.
- Acid-based, commercial-strength formula.
- Safe on copper and aluminum surfaces.

Directions for Use:

Dilute ALUBRITE with 1 to 5 parts water, switch off the AC or refrigeration unit, wet the coils, and spray ALUBRITE from top to bottom until fully covered. Allow the solution to foam and act for 5-10 minutes, then rinse thoroughly with water to remove all residue.

Safety Precautions:

Avoid contact with skin, eyes, and clothing; always wear chemical-resistant gloves, goggles, and protective clothing; and store in a cool, dry place away from children.

First Aid:

- **Skin contact:** Wash with soap and water.
- **Eye contact:** Flush with water for at least 10 minutes.
- **Ingestion:** Do not induce vomiting. Drink plenty of water and seek medical attention.
- **Inhalation:** Move to fresh air immediately.

Packaging: 1 Gallon (5 Liters)
