

# COIL GREEN

Condenser/Evaporator Coil Cleaner Concentrate

## Characteristics | Features

- Non-acid/Low foam formula
- Can be used indoor & outdoors
- Will not harm copper or aluminium
- Commercial strength
- Cleans metal coils, metal/fiber filters

COIL GREEN is a high-performance, non-acidic coil cleaner specially formulated to clean evaporator coils, condenser coils, and air-handling units. Its mild foaming, self-rinsing action harnesses the system's natural condensation to flush away dirt, grease, lint, and other contaminants that reduce system efficiency. Safe for both indoor and outdoor use, COIL GREEN ensures coils stay clean, fresh, and are operating at peak performance.

### Key Features:

- Mild foaming action for safe yet effective cleaning
- Non-acid formula – safe for indoor applications
- Increases cooling capacity & system efficiency
- Commercial-strength professional formulation
- Will not damage copper or aluminum surfaces
- Suitable for evaporator & condenser coils

### Directions for Use:

Turn off the system and wear protective equipment, then dilute COIL GREEN with 1-5 parts water depending on the soil level. Apply the solution with a low-pressure sprayer to thoroughly saturate the coils, allow it to dwell for 5-10 minutes, and finally restart the unit in cooling mode, allowing condensation to self-rinse the coils.

### Safety Precautions:

Wear gloves and safety glasses, avoid contact with skin and eyes, and store in a cool, dry place away from direct sunlight.

### First Aid:

- **Skin contact:** Wash with soap and water.
- **Eye contact:** Flush with water for at least 10 minutes.
- **Ingestion:** Do not induce vomiting. Rinse mouth with water and seek medical advice immediately.
- **Inhalation:** Move to fresh air immediately.

**Packaging:** 1 Gallon (5 Liters)
