

PROPAN

A/C Pan Treatment Tablets

ProPan Condensate Pan Tablets

Advanced Odor Control & Deposit Prevention Solution

Prevents sludge, rust & other accumulations

ProPan Condensate Pan Tablets are engineered with fast-acting, high-performance ingredients designed to neutralize odors and dissolve mineral and organic deposits that commonly lead to clogged drain lines and fouled humidifier pans. These tablets provide a long-lasting, maintenance-friendly solution for HVAC systems operating in demanding environments.

Product Highlights

- **Safe for Critical Environments** - Non-toxic and non-corrosive, suitable for use in computer rooms and other sensitive areas.
- **Fully Water-Soluble** - Dissolves completely without leaving behind any sediment or residue.
- **Residue-Free Formula** - Eliminates the risk of buildup in drain lines or pans.
- **Non-Corrosive Vapor** - Will not emit fumes or vapors that could corrode system components or damage surrounding equipment.

Recommended Applications

For Air Conditioning and Heat Pump Systems:
To maximize treatment efficacy, position tablets at the furthest point from the drain outlet.
Dosage: Apply 2 tablets per 5 tons of cooling capacity on a monthly basis.

For Humidifier Systems:
Use a minimum of 2 tablets per month to inhibit scale formation and control microbial odors.
Regular cleaning and rinsing of the water reservoir is recommended to maintain optimal system hygiene.
